

Commemorate the year  
with a cute reindeer!

### What you will need

- 3 wide popsicle sticks
- 2 small candy canes
- large google eyes
- Green felt
- 1 medium sized red pom pon
- 3 small red pom pons
- Green ribbon
- Scissors
- Hot glue
- Sharpie

### Let's get creative

**Note:** Adult supervision is needed when using scissors and hot glue gun.

- 1** Glue the popsicle sticks together in an upside-down 'A' shape so that one end connects at the points and the other crosses over with overlap.
- 2** Glue two small candy canes to the two protruding ends at the top. Glue the regular sized red pom pon to the bottom corner and the two google eyes above it.
- 3** Cut two holly leaf shapes out of the green felt, and glue together at a point below one candy cane. Glue the three smaller red pom pons in a cluster on top of the holly leaves.
- 4** Cut a piece of ribbon and tie the ends in a bow, leaving enough of a loop below to tie to the reindeer. Tie the end of the bow in a slipknot to the upper popsicle stick.
- 5** Write your name and the year in marker on the upper popsicle stick.
