# NO-SEW Sock Worm

1

Stuff sock with rice.

2

Secure the open end of the sock tightly with a rubber band, then create additional sections on the worm by pinching or twisting the sock. Secure these sections with rubber bands (We made 5 sections).

3

Glue Googly eyes on the face.

4

Take a pipe cleaner and wrap around the first section of the worm. Curl the ends how you like to make the antennae.
