# Paper Plate Jellyfish

What you will need

- ☐ Paper Plate
- ☐ Paint and Brushes
- ☐ Black Marker
- ☐ Scissors
- ☐ Googly Eyes
- ☐ Hole Punch
- ☐ Glue
- ☐ Ribbon or Yarn

Let's Get Creative!

1 Cut your paper plate in half, in a wavy line. Paint, and allow to dry.

2 Along the wavy edge, make several holes with a hole punch. The holes need to be about 1/4 inch away from the edge.

3 Cut lengths of yarn/ribbon for each hole punched. It's ok to have different lengths.

4 Tie the ribbon lengths onto each hole.

5 Glue googly eyes to the center of the jellyfish's face. Use a marker to add details.

6 Punch a hole at the top of the jellyfish and tie on a loop of yarn to hang.
