

### What you will need

- ☐ Foam Pool Noodle
- ☐ White Craft Foam
- ☐ Scissors
- ☐ Googly Eyes
- ☐ Hot Glue Gun and Glue Sticks

### Let's Get Creative!

- 1** Use scissors (or a knife with supervision) to cut a 5 inch section of pool noodle.
- 2** Cut one corner of the pool noodle off to create a diagonal. Save the piece for the back fin.
- 3** On the opposite side of your first cut, cut halfway through the noodle, careful not to go all the way through. See diagram.
- 4** Cut diagonally again with the half-cut to remove a wedge for the mouth. See diagram.
- 5** Using scissors, cut zig-zaggy teeth out of white craft foam. Glue inside the mouth.
- 6** Glue the saved piece of noodle to the back of the shark to make a fin.
- 7** Glue googly eyes to each side of the shark's face.
