

Did you know?
Beetles cannot see very well, so they communicate using pheromones, sounds, or vibrations.

What you will need

- ☐ Recycled Plastic Spoons
- ☐ Green Craft Foam
- ☐ Scissors
- ☐ Paint and Brushes
- ☐ Marker
- ☐ Googly Eyes
- ☐ Glue

Let's Get Creative!

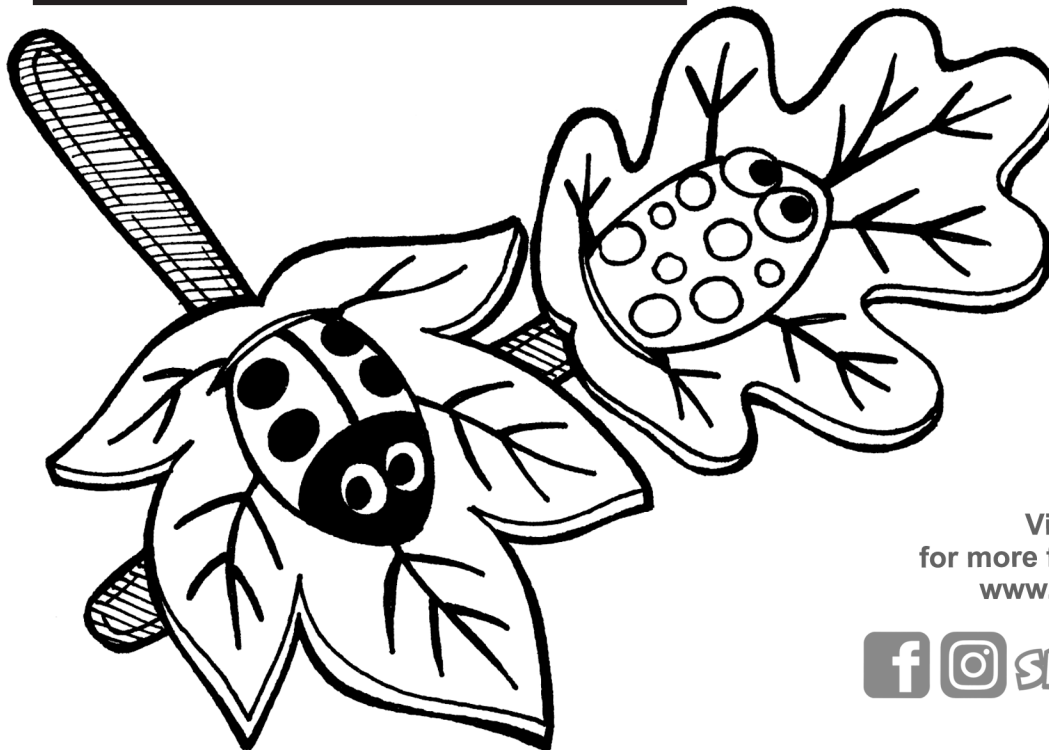

Spoon Bugs on Leaves

1 Paint the handle of your spoon brown, and the end in bright colors and patterns. This will be your bug's body. Allow to Dry.

2 Glue googly eyes to the head of the bug. Set Aside.

3 On green craft foam, use a marker to draw a leaf shape. Use scissors to cut out.

4 Cut a slit at the bottom of your leaf and push the spoon through.
