

Did you know?
Primary rainbows are
formed when light shines
through water droplets.

What you will need

- ☐ Green Craft Foam
- ☐ Shamrock Pattern
- ☐ Yarn (about 36 inches long)
- ☐ Penne Pasta (30 pieces)
- ☐ Paint and Brushes
- ☐ Scissors
- ☐ Hole Punch

Let's Get Creative!

- 1** Paint the pasta in rainbow colors. We used purple, red, orange, yellow, green and blue. Set aside to dry.
- 2** Cut a piece of yarn for your necklace. Adjust the length accordingly.
- 3** Trace out your shamrock on green foam and cut it out. Make a hole at the top to thread the yarn through.
- 4** Add your shamrock to the length of yarn, followed by painted pasta pieces in alternating colors. Tie the ends of the yarn together.

*Optional: Feel free to add beads and other things to your necklace!
